SPECIALISTS IN NEW BUILD, REFIT AND DRY DOCK

Dedicated direct contact

At Jotun we take pride in developing lifelong loyal relationships. By way of JotunCare, a dedicated global fleet support function will stand beside you and your professional crew, no matter where you are, throughout the lifecycle of the yachts Jotun coating system. Giving you peace of mind that you have a direct contact within Jotun, offering you support including customized specifications, technical support or simply information on the latest coating technologies. Giving you confidence and trust, and taking the pain out of paint.

Lifecycle inspections

We understand critical decisions, like when to consider a paint project and what products to use, are often made from experience, knowledge and reliable information. This is why we actively encourage the Jotun coated fleet, in taking advantage of the periodic lifecycle coating inspections, offered through JotunCare. By request, your Jotun fleet support contact will coordinate a Technical Specialist to attend the yacht and perform the inspection, at an agreed time. Ensuring everyone is objectively informed on the lifecycle performance of Jotun coating systems.

Crew education

It is often said the first 7 seconds is when you make the lasting impression, and the luxurious superyacht industry demands the highest of aesthetics at every moment. Through JotunCare we offer regular paint workshops where we share tips on care and maintenance of paint systems, inform on latest coating technologies as well as coordinate practical sessions delivered by our expert Technical Specialists. Empowering everyone on-board in selecting and maintaining coating systems to the highest level, helping to be shipshape and ready for owner and guests.

OTHERS BRANDS

No shortcut and cutting corners - Niente scorciatoie o lavori incompleti.

On the ball – fare un buon lavoro
